companion

#### DESIGNED FOR THE JOURNEY AHEAD

Born from a vision of purposeful elegance, Orion is crafted for those who see travel not as a task, but as an art. Designed for explorers who value sophistication as much as practicality, it invites you to move with intention, curiosity, and quiet confidence. In a world that never stands still, Orion remains grounded in lasting values: luxury, security, and personalisation.

Each piece is shaped with thoughtful precision—using durable, sustainable materials and refined finishes that evolve with your journey. As you turn the pages ahead, discover how Orion brings clarity to the chaos of travel, offering structure, beauty, and a sense of belonging wherever you go.

Orion. Always Forward. Always Yours.

Travel, refined—where luxury meets function, and every journey feels like home

## INSPIRATION, DESIGN PROCESS, AND VALUES: THE BIRTH OF ORION

Travel is more than just a change of scenery; it's an invitation to explore and connect. Orion was created with this idea in mind—to reflect the true essence of travel, not just in the places we visit, but in the journeys we take within ourselves. For those who travel with purpose and curiosity, Orion is designed to be a trusted companion, ready to support every step of the way.

The design of Orion blends timeless elegance with practical function. Every curve and compartment was carefully planned to bring structure and simplicity to modern travel. Each detail was chosen to ensure that Orion evolves with your journey, offering a perfect balance of elegance and functionality.

[Luxury | Security | Personalisation]

### HIDDEN LAPTOP SLEEVE: EFFORTLESS ELEGANCE, UNMATCHED FUNCTION

Orion's laptop sleeve combines convenience with security. Discreetly nestled beneath the trolley handle, it opens with a simple push, allowing you quick access to your devices. When not in use, the sleeve remains hidden, preserving the sleek and minimalistic design of the suitcase.

Equipped with an anti-theft mechanism, Orion ensures your tech is safe and secure throughout your journey. The integrated charging port keeps you powered up while on the move. Designed for the traveler who values both security and sophistication, Orion delivers the perfect balance of style, functionality, and protection.

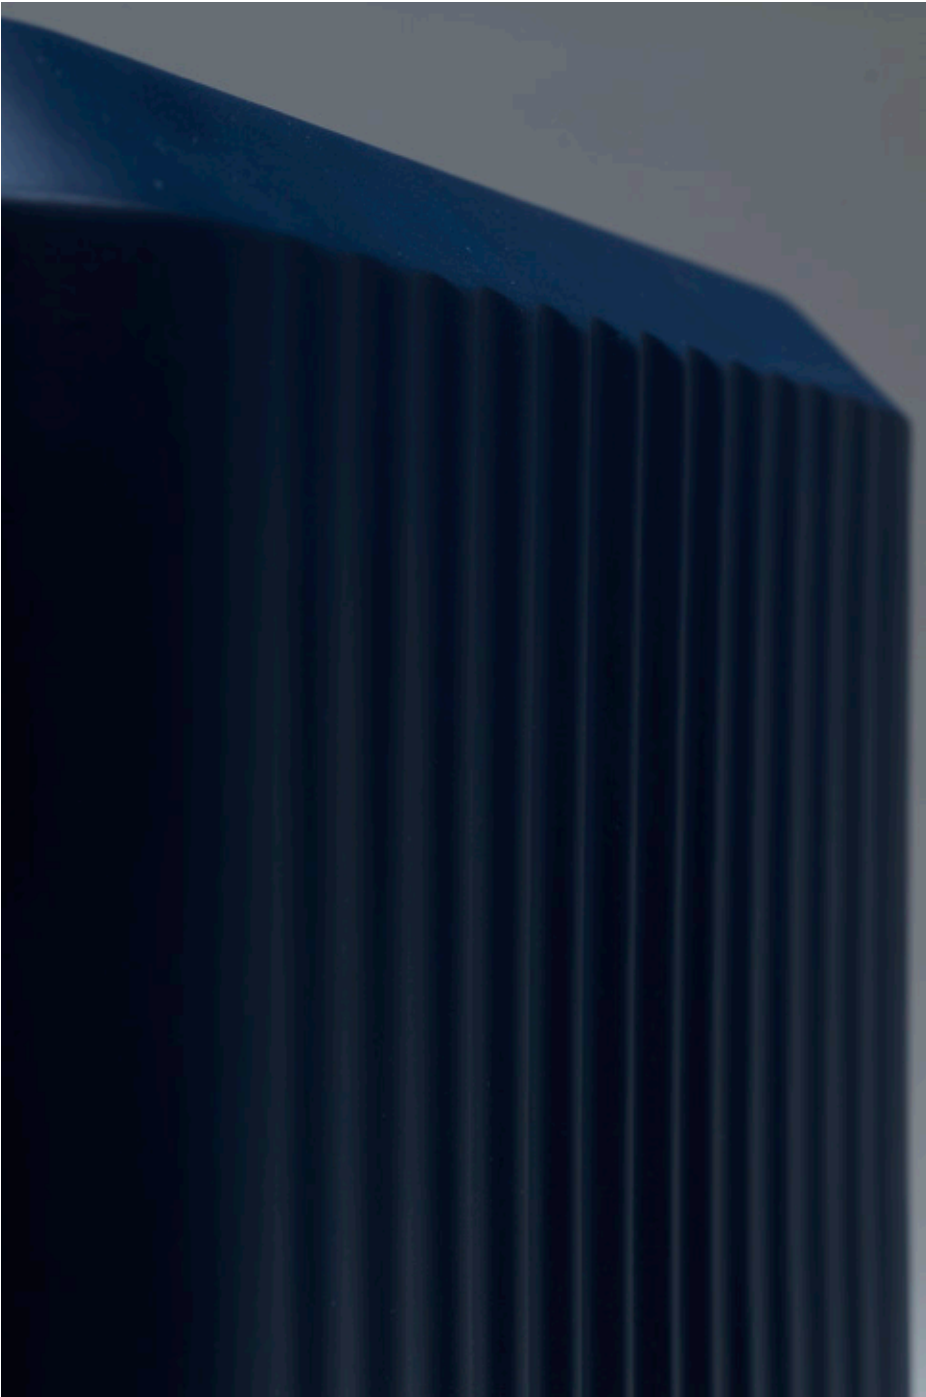

CARRY-ON PLUS

This carry-on suitcase features a distinctive form, with a slightly smaller front shell to discreetly house a hidden laptop sleeve—accessed via a push-to-open mechanism inspired by kitchen drawers. The exterior is adorned with a rounded flute detail that gradually fades toward the corners, echoing the tactile flow of water ripples. Designed to elevate luxury and individuality, it offers enhanced security, personalisation, and a confident travel experience—becoming a true extension of you.
